Weekly after school dance sessions

Impact Dance will deliver 1.5 hour weekly after school dance sessions. This will be led by one of our core teachers that represent the company who are trained to deliver high quality classes all within the ethos of the company.

"Voices" Educational Package - Resource content only

A resource pack created by Michelle Vellacott in conjunction with Impact Dance. Voices is one of Impact Youth's most successful international touring pieces and the resource is made up of an 8-minute performance film, teachers notes and lesson plans with links to PSHE and citizenship which can all be used directly with students.

'Young people have their own voices, and we should listen. Adults don't always have the answers. Don't let it get to a critical situation before we address something.'

Hakeem Onibudo, CEO Impact Dance

“Voices” Educational Package - Resource & Half Day Workshop

“Voices” resource pack which will then be practically supported by a half day workshop led by one of our experienced dance teachers who have been trained to deliver high quality classes all within the ethos of the company.

“Voices” Educational Package - Resource & 5 weekly 1 hour sessions supported by Impact Dance

“Voices” resource pack which will then be practically supported throughout all five sessions to complete the whole educational package. This will be led by one of our experienced dance teachers who have been trained to deliver high quality classes all within the ethos of the company.

Dance Workshop & Sharing

Impact Dance offer one off tailored workshops which will be based around the hip-hop technique. Led by one of our experienced teachers which will then lead to a sharing of the work the young people have learnt.

All the above represent the same practical and mental ethos to allow young people to achieve extra-ordinary things through the medium of dance whilst teaching leadership and life skills to equip the youth with the capacity to release their potential.

Please contact our Creative Producer Paige Jarrett for further information and how to book any of the above sessions
